

**Classification / location, placement*****I GENERAL, MEDICINE, ANCILLARY SCIENCES AND HUMANITIES***  
***(excluding Biomedical Ethics)***

I.1 Dictionary, Encyclopedia, Lexicon, Handbook gen.

I.2 Medicine (Textbooks and Manuals)

I.3 History of Medicine

I.3.1 Historical texts

I.3.2 Studies

I.3.3 History of Medical Ethics

I.4 Theory of Medicine

(Health / Disease etc.)

I.5 Ethics (Classical Texts, Theory, Metaethics)

I.5.1 General Introductions (again I am not sure what is meant here?)

I.5.2 Classical Texts

I.5.3 Applied Ethics (excluding Biomedical topics)

I.6 Philosophy gen.

I.7 Theology gen.

I.8 Sciences

I.9 Social sciences, Cultural studies, Gender

I.10 Law

I.11 Didactics / E-learning

I.12 Economics

I.25 Miscellaneous

## ***II BIOMEDICAL ETHICS (BME)***

### *II.1 BME general*

#### II.1.1 Dictionary, Encyclopedia, Lexicon, Handbooks gen.

(II.1.1.a library copy)

(II.1.1.b for loan)

#### II.1.2 Fundamentals of Biomedical Ethics

II.1.2.a General Treatises and Anthologies

II.1.2.b Methods

II.1.2.c Concepts (E.g.: Human Dignity, Nature etc.)

II.1.2.d Feminist Ethics

II.1.2.e Principlism

#### II.1.3 Introductions and Textbooks

II.1.3.a Medicine

II.1.3.b Dentistry

#### II.1.4 Didactics / E-learning

### *II.2 Medicine and Medical Ethics with other Disciplines*

#### II.2.1 Medicine and Law

II.2.1.a Switzerland

II.2.1.b Germany

II.2.1.c Other Countries

II.2.1.d International

II.2.1.e Human Rights

II.2.1.f Forensic Medicine

II.2.1.g Health Care Law

II.2.1.h Intellectual Property

#### II.2.2 Medicine and Policy / Sociology

#### II.2.3 Medicine and Economics (q.v. II.3.3 Public Health / Public Health)

II.2.3.a DRG

II.2.3.b Managed Care

II.2.3.c Profitability / Rationing

II.2.3.d Health Care Market / Pharmaceutical Industry

## II.2.4 Medicine and Culture

### II.2.4.a Cross-cultural and Transcultural Bioethics

### II.2.4.b Religions

#### II.2.4.b1 Christianity

#### II.2.4.b2 Islam

#### II.2.4.b3 Judaism

### II.2.4.c Anthropology

### II.2.4.d Developing World Bioethics

## II.2.5 Gender, Women's Studies

## *II.3 Fields and Topics of Biomedical Ethics*

### II.3.1 Clinical Ethics

#### II.3.1.a Informed consent

#### II.3.1.b Medical Profession

#### II.3.1.c Patient-physician Relationship

#### II.3.1.d Care

#### II.3.1.e Ethics Committee / Counselling

#### II.3.1.f Decision-making for non-autonomous patients

### II.3.2 Research Ethics

#### II.3.2.a Informed consent

#### II.3.2.b Research on special Groups (children, pregnant women, non-autonomous patients etc.)

#### II.3.2.c Vulnerability

#### II.3.2.d Ethics Commissions

#### II.3.2.e Scientific Integrity, Best Practice

#### II.3.2.f Conflict of interests / Financing

#### II.3.2.g Regulations / Guidelines / Policy

#### II.3.2.h International Research Ethics

### II.3.3 Public Health / Health Care (q.v. II.2.3 Medicine and Economics)

#### II.3.3.a Distributive Justice

#### II.3.3.b Prevention and Screening

#### II.3.3.c Managed Care

### II.3.4 Biotechnology

#### II.3.4.a Nano-Medicine

#### II.3.4.b Synthetic Biology

### II.3.5 Beginning of Life

#### II.3.5.a Status of the Embryo

#### II.3.5.b Neonatology

#### II.3.5.c Birth and Education

### II.3.6 End of Life, Age / Elderly patients

II.3.6.a Age, Dementia

II.3.6.b Advance directive

II.3.6.c Medically Assisted Suicide, Euthanasia, Suicide

II.3.6.d Criteria for death

II.3.6.e Hospice, Palliative medicine

II.3.6.f Anti-Aging (q.v. II.3.13 Enhancement)

### II.3.7 Disability

### II.3.8 Reproductive medicine and Gynaecology

II.3.8.a Pre-implantation diagnosis [abbr.: PID]

II.3.8.b In vitro fertilisation (IVF) / Assisted Reproductive Technology (ART)

II.3.8.c Abortion

### II.3.9 Genetics

### II.3.10 Transplantation medicine (q.v. II.3.17 Body and Property of body parts)

II.3.10.a Living donation

II.3.10.b Postmortem donation

II.3.10.c Tissue transplantation

II.3.10.d Organ trafficking

### II.3.11 Neuroethics, Neurosciences and Neurosurgery

### II.3.12 Psychiatry / Psychopharmacology

### II.3.13 Enhancement

### II.3.14 Evidence-based medicine (and Guidelines)

### II.3.15 Biobanks

### II.3.16 Cloning and Embryonic stem cell research

### II.3.17 Body and Property on body parts (q.v. II.3.10 Transplantation medicine)

### II.3.18 Paediatrics / Children

### II.3.19 Intensive Care / Emergency Medicine

### II.3.20 Primary Health Care

### II.3.21 Surgery

### II.3.22 Pharmaceuticals

*II.4 Bioethics: other*

II.4.1 Environmental ethics

II.4.2 Animal ethics

II.4.2.a Animal experiments

***III Miscellaneous***

III.1 BME in Art and Fiction

III.2 Narratives

III.3 Exhibition catalogues

III.4 Audio-Documents

III.5 Video

III.6 other Media / Multimedia

III.7 Thesis / Habilitations (of the Institute)

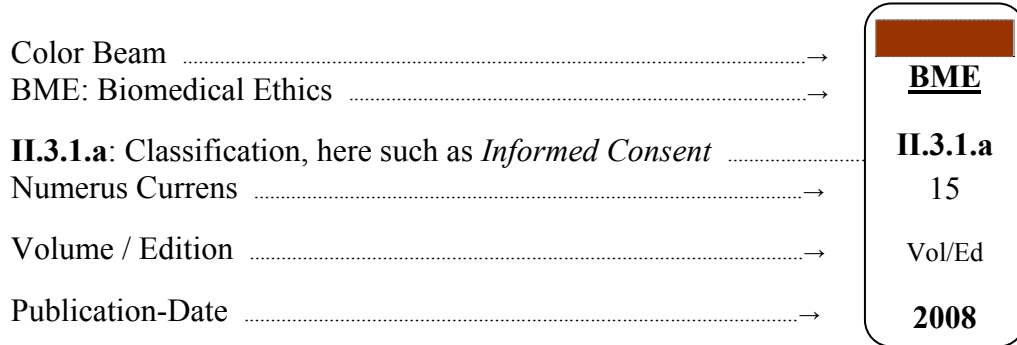

III.8 Brochures / Grey literature (Offprints)

Updated 05.10.2009

# BME-Classification

(used for the topical literature placement and call numbers)

## Structure of a Call Number
